MEMORANDUM FOR: Project Director

SUBJECT: Approval of Other Agency's Plans for Utilization

1. In keeping with the procedures established in the TALENT Security Control Manual each consumer will shortly be submitting plans for approval of this Agency. When approved, each of them will proceed to operate the manual on its own responsibility with a provision for DCI inspection at any time and the maintenance in CIA of a complete roster of cleared personnel.

2. Attached is the first of these plans which I have received, submitted by Office of Assistant Chief of Staff, Intelligence. In my view it is a modest proposal and is in keeping with the manual. I call attention to the fact that General Taylor, Chief of Staff, is on the list. His briefing is believed essential because his approval for personnel for G-2 must be obtained.

3. Recommendation: That I be assigned the responsibility for approving utilization plans submitted in accordance with the Security Manual by the consumers of TALENT materials. If you approve, I will execute the attached document and similar ones subsequently, retaining a copy for my file and sending one to the Security Office for the Project and one copy to Security Officer for HTAUTOMAT.
